

COVID-19 Update (August 2, 2022)

A safe supportive learning environment based on the educational, social, mental health and wellbeing of our students is the top priority of the SJCSD.

We ask that you keep your child home if he/she has a fever, virus, or any other contagious disease, i.e., conjunctivitis, influenza, gastrointestinal infections, etc. Staying home can lower the risk of spreading infectious diseases. Please refer to the [St. Johns County School District Illness & Prevention Guidelines](#) for guidance and recommendations. Absences due to COVID-19, will be treated as any other illness as described in the [Student Code of Conduct](#).

There is no longer a dedicated district COVID hotline. All future COVID-related questions or concerns should be discussed with your child's pediatrician.

The district will no longer post a COVID-19 Dashboard, please refer to the Florida Department of Health for county-by-county totals.

St. Johns County School District will no longer provide exposure notifications for the upcoming 2022-2023 school year.
