SCHOOLLOGY TRAINING

An introduction to navigating Schoology for parents and guardians.

Parents can create a Schoology account to stay informed and support their student's success. By checking Schoology regularly, parents can see what their student is learning, view upcoming assignments and due dates, monitor grades and feedback, and better understand what is happening in their student's classes.

Join us to learn how to navigate Schoology, find important information, and use your parent account to stay connected to your student's learning!

Tuesday, August 25th
